- 31.3 Prior to the detailed evaluation, the Owner will determine whether each bid is of acceptable quality, is generally complete and is responsive to the Bidding documents. A substantially responsive Bid is one which conforms to the terms, conditions and specification of the Bidding Documents without material deviation. A material deviation is one which affects in any substantial way the scope, quality or performance of the works, or which limits in any substantial way, inconsistent with the Bidding Document, the OWNER's rights or the Bidder's obligations as envisaged in the Bidding Document, and the rectification of which deviation or reservation would affect unfairly the competitive position of other Bidders presenting substantially responsive Bids.
- 31.4 Net worth of the Bidder / Bidder's Parent Company in the preceding financial year shall also be determined in line with the requirement of Bidding Document. The offer of the Bidder whose Net Worth or their Parent Company's Net Worth, as mentioned in LIB, is "Negative" in the immediate preceding financial year shall not be considered for further evaluation.
- 31.5 The Owner will carry out a detailed evaluation of the bids previously determined to be responsive in order to determine whether the technical aspects are in accordance with the requirements set forth in the Bidding Document on the basis of details/documents submitted by the Bidder in the bid at the first instance. In order to reach such a determination, the Owner will examine and compare the technical aspects of the bids on the basis of the information supplied by the Bidders, taking into account the following factors:
- a. Overall completeness and compliance with the Technical Specifications; quality, function and operation of any process control concept included in the bid. All responses shall be in writing, and no change in the price or substance of the bid shall be permitted unless specifically sought by MMTC.
- 31.8 Bidders shall however note that no revision in quoted Rates shall be allowed, in case Bidder still stipulate the deviations which are not accepted by the Owner and are required to be withdrawn by the Bidder in favor of stipulations of the bidding document.

Once quoted, the Bidder shall not make any subsequent price changes, whether resulting or arising out of any technical / commercial clarifications sought on any deviations or exceptions mentioned in the bid. Similarly, no revision in quoted price shall be allowed should the deviations stipulated by him are not accepted by Owner and are required to be withdrawn by him in favor of stipulation of the Bidding Document. Any proposed price changes is likely to render the bid liable for rejection. In case of unsolicited price increase, such offer(s) of the Bidders shall be rejected. In case of unsolicited price decrease, the Bidder(s)'s offer shall be compared as per originally quoted prices and if the Bidder happens to be the recommended Bidder, the decrease in prices shall be taken into account for ordering.
