## GENERAL RULES AND REGULATION GOVERNING CONDUCT OF ONLINE TENDER/ AUCTIONS ON THE “SERVICE PROVIDER” PLATFORM

### INTRODUCTION:

This PQT Auction Strategy mode of Online Tender/Forward Auction is being conducted for MMTC Ltd. (Hereinafter referred as the “Client”) on the Auction Platform of mjunction services ltd (Hereinafter referred as “Service Provider”). The General Rules and Regulations provided herein govern the conduct of on line Forward Auctions arranged by “Service provider” on its Auction Platform. These rules cover the **Roles & Responsibilities** of the parties in the online Forward Auctions on the Auction Platform. **Acceptance in-to these General Rules and Regulations governing conduct of online auctions and Terms and Conditions for Sale of Materials by auction of MMTC Ltd. is a pre-requisite for securing participation in the online auctions.**

The key terms pertaining to the online Forward Auctions are provided in the “Annexure-A”. Prospective bidders are advised to read through the same.

### ROLE OF “SERVICE PROVIDER”

1. “Service Provider” is the agency (operator) primarily providing the service of the Forward auction to the “client”.
2. Finalization of the auction items in consultation with the client.
3. Defining of bidding rules for each auction in consultation with the client.
  - a. Enhancing bidder awareness of and comfort with the auction mechanism and bidding rules.
  - b. Input of the Auction items and defining the bidding rule in the auction engine.
  - c. Enlarging the customer base by introducing new bidders.
  - d. Collection of EMD, Letter of Interest etc. from the willing bidders and forwarding the same to the Client.
  - e. Providing access to the approved bidders to participate in the Auction.
  - f. Summarizing the Auction proceedings and communicate the outcome to the Client. The responsibility of fulfillment of the contract rests between the bidders and the client and the responsibility of the “Service Provider” shall be restricted to the extent of the services provided by them.

### ROLE OF BIDDER

- Definition of the unit bidding
- Start Time and duration of the auction
- Any extension of the duration of the auction in the event of bids being received towards the end of the pre-specified duration
- Start Bid Price
- Specified Unit for Bidding

- Price Increments and any reduction in the price increment in the auction in the event of inactivity
- Other attributes (informational/non-negotiable in nature)

#### The role of the bidder is outlined below:

1. The bidder would participate in the auction with the aim of bidding to secure the auctioned item in the auction
2. The bidder would be provided access to the Auction through an “User ID” protected by a “Password”. The bidder needs to ensure that the “User ID” and “Password” is not revealed to unauthorized persons. Bidders are also requested to change the password allocated to them by the “Service Provider” to keep their confidentiality. **However it would be bidder’s sole responsibility to ensure the security and privacy of the same and he/they would not hold the “Client” / “Service Provider” responsible in any manner whatsoever for any misuse of these user IDs and/or Password.** Access to the auction mechanism shall be provided to all the approved bidders subsequent to obtaining their written consent to the General Rules & Regulations and the Letter of Interest. Payment of Earnest Money Deposit (EMD) as decided by the client before the start of the Forward auction will be one of the necessary conditions for participating in the auction.
3. Bidders hereby confirm that they shall commit to lift the item (being bid for) at the price entered by them in the auction engine AND at the terms and conditions specified herein by the Client. All Prices entered shall be legally binding on the bidders. Bidders are strongly advised to exercise due diligence while placing bids. Failure to honor the bids placed during online bidding shall render the bidders liable for penal action as deemed fit by “Client” / “Service Provider”.
4. In the event of winning an allotment in the auction mechanism, the bidder shall commit to fulfill outlined obligations under the contract.
5. The bidders shall bid on the terms specified by the client & place their bid in the auction engine in the manner specified by “Service Provider”. The bidders shall not stipulate any conditions on their own unless the terms of the client (the client’s terms & conditions) expressly permit such conditions being stipulated by the bidder. Bids entered with conditions attached shall be considered Conditional bids & “service provider” retains the right of rejecting these bids even without intimating the client.

#### BIDDING RULES

The Bidding Rules refer to the information and terms defined specifically for a particular auction. The purpose of the Bidding rules is to provide approved bidders with the information and terms specific to the auction in which they are bidding. This would include:

While it shall be the endeavor of “Service Provider” to specify these rules at the earliest for each online auction, the “Service Provider” shall retain the right to delay the announcement of these biddings rules or modify rules specified earlier at the time of the online bidding. These details would be available to the bidders on the Auction Engine at the time of bidding.

***Participation in the auction process presumes complete awareness & understanding of the bidding rules.***

#### **CONDUCT OF THE AUCTION:**

Only those bidders who have been approved by the “Client” and handed over stamped and manually signed “General Rules and Regulations governing conduct of online auction along with Letter of Interest, required EMD amount and other necessary documents to the “Client”/ “Service Provider” prior to the start of online auction will be given “Login ID” & “PASSWORD” to enable them view and participate in online auction. The Auction shall be conducted on pre-specified date. The Key Terms pertaining to the conduct of Auction such as “**START TIME**”, “**DURATION**”, “**END TIME**” & “**AUTO EXTENSION FACILITY**” Shall be specified separately for each Auction. “Service provider” retains the right to cancel or reschedule the auction, with the approval of the Competent Authority of the Client, on any of the following reasons:

- The number of confirmed bidders is deemed insufficient to conduct the auction
- Some of the confirmed bidders are unable to access the module due to infrastructure problems such as sustained power failure or telecommunication breakdown.
- There are no bids, which are equal to or below Start Bid Price.
- Any other reason which in the opinion of “Service Provider” / “Client” requires such action to be initiated.

The duration of auction may also vary from the pre-specified period of time either on account of termination of the auction by “Service Provider” on the advice of the Client.

**Or**

In case of situations where it is felt that continuance of the auction proceedings is prejudicial to the smooth conduct and / or the integrity of the auction process.

**Or**

Due to Auto Extension during the Auction, duration may increase from specified period. In the event of any problems being faced in the smooth conduct of the auction, “Service Provider” with the approval of the Competent Authority of the Client, shall have the right to undertake one or more of the following steps:

- Cancellation/ premature termination of the auction with/ without a subsequent rerun of the auction on a mutually decided date
- Cancellation of a bid
- Locking / deactivate a bidder’s account (suspension of operations in the account), etc.

In case of failure of net connection, bidder will give his best price to the “Service Provider”. “Service Provider” will bid on behalf of the bidder with the minimum increment until the bid price reaches the best price offered by the bidder, by proxy bidding mechanism.

The best price communicated by the bidder will have to be authenticated by written confirmation or fax to the “Service Provider” and will be kept confidential between the “Service Provider” and the bidder. Bidder will be bound by the price offered.

#### **METHODOLOGY FOR ALLOCATION OF QUANTITY IN PQT AUCTION STRATEGY BIDDING**

Allocation is carried out by the e-Sale software on following basis:

- a. First preference is given to highest bid price
- b. If two or more parties bid the same price then preference for allocation is given to party that placed the bid for a higher quantity.
- c. In case two or more parties bid the same price and quantity, then preference is given to the party that placed the bid earlier.

The above is illustrated below for tonnage wise bidding.

Assume that the total quantity available is 800 MT and customers bid for certain quantity (in MT) at a certain price as illustrated in following table (minimum bid quantity is assumed as 200 MT= 1 UNIT):

Bidder Bid Time (Hr.: Min.)

Bid Quantity in Units (200MT= 1UNIT)

Bid Price (Rs/Unit)

Allocated Qty. In Units (200MT = 1 UNIT)

Bidder	Bid Time (Hr.: Min.)	Bid Quantity in Units (200MT= 1UNIT)	Bid Price (Rs/Unit)	Allocated Qty. In Units (200MT = 1 UNIT)
B	9.40	1	15000	1
F	9.39	2	14800	2
D	9.36	1	14800	0
A	9.32	1	14800	1
E	9.34	1	14800	0
C	9.30	2	14750	0

#### **Explanation for the Allocation of Quantity**

1. Bidder B is the highest bidder @ Rs.15000/MT, hence the system allocates his bided quantity i.e., 200 mt = 1 Unit

2. There are 4 bidders @ Rs.14800/Mt.

(i) Since bidder F’s bid was for 400 MT ( 2 Unit ) (Highest at Rs.14800/MT) the system allocates his bid quantity in full.

(ii) Since bidder A placed his bid earlier than bidder D & bidder E i.e. 9.32 Hrs hence the software gives first preference to Bidder A

(iii) and allocates bidder A the available quantity ( i.e. 200 MT = 1 Unit) first.

3. Since, all the quantity is exhausted at higher bid price than Rs.14750/MT, therefore no quantity is allocated to Bidder C. If Bidder C wants to win any quantity then he has to place bid in terms of higher price and/or greater quantity.

**Note: Buyers are suggested to closely monitor “Allocated Quantity Column “ to get themselves updated about the current status of their bid.**

**Allocated quantity at the time of closure of the auction will be the final.**

#### **LIABILITY OF “SERVICE PROVIDER”**

**“Service Provider” shall not be liable to the client/ bidders participating in the auction or any other person(s)**

**for:**

- Any breach of contract by any of the parties in the fulfillment of the underlying contract.
- Any delays in initiating the online auction or postponement / cancellation of the online auction proceedings due to any problem with the hardware / software / infrastructure facilities or any other shortcomings. While, reasonable care and diligence will be taken by “Service Provider” in discharge of its responsibilities such as design of the online bid, communication of bid details and rules, guidance to client/ bidders in accessing the Auction Engine and placing bids, etc. the bidders shall specifically indemnify “Service Provider” from all liabilities for any shortcomings on these aspects. It is clearly understood that these activities are undertaken by “Service Provider” to assist the bidders in participation but the ultimate responsibility on all these counts lies totally with the bidders.

#### **RIGHT OF THE CLIENT:**

The Client reserves the right to partially or totally accept or reject any / all bids placed in the Online Auction without assigning any reason whatsoever. The decision of the client would be final and binding on the bidder in any such case.

#### **CONFIDENTIALITY CLAUSE:**

“Service Provider” undertakes to handle any sensitive information provided by the client or confirmed bidders for the auctions conducted with utmost trust and confidentiality.

#### **JURISDICTION**

Any disputes relating to the online auction module shall be subject to the sole jurisdiction of Court of Law having jurisdictions over the Plant from where the materials are being sold.

**Signed in acceptance of the above terms and conditions**

## ANNEXURE-A

### DEFINITION OF KEY TERMS

**Auction:** Auction refers to a forum where the requirement for one/more lots of an item is stated and the participants (bidders) are required to bid down the price to be selected to supply the requirement.

**Online Auctions:** Online auctions refer to those auctions conducted through the internet with the bidders (from one or more locations) simultaneously bidding to be selected for supplying the item/s on auction. In other words, the venue for the auction is on an Internet website/platform. The "Service Provider's" website assigned by "Service Provider" would constitute venue for the purpose of the online auction.

### Award at the Auction:

In a single winner format, only one bidder (normally the bidder who quotes the highest price) is awarded all the units of the item being auctioned. The bidder quoting the highest price is normally allotted the item.

### Client:

Client is the individual/business entity who has contracted "Service Provider" to conduct such auction. In case of auction, the purpose would be the genuine intent to sell the selected item/s (Lot) to the bidders desiring to buy these items from the Client.

**Bidder:** Bidder is the individual/business entity participating in the auction, intending to buy the item/s from the Client. To become a Bidder in the auction, a business entity has to secure client approval for participation and also provide written assent to the General Rules and Regulations

**Auction Engine:** Auction Engine refers to the software that encapsulates the entire auction environment, processing logic and information flows. "Service Provider" is the sole owner of the auction engine and retains exclusive right over the utilization of the same.

**Timings of the Online Bid:** All the timings of the Online Bid shall be based on the time indicated by the Server hosting the Auction Engine. It shall be the endeavor of "Service Provider" to ensure that the Server Time reflects as closely as possible the Indian Standard Time (IST) i.e., GMT + 0530 hrs. However, in the event of any deviations between the Server Time and the Indian Standard Time, the functioning of the Auction Engine (launch, operation, and closure) would be guided by the Server Time. Bidders are advised to refresh both the windows of the Auction Module check the exact Server Time (displayed in both the windows).

**Preview Time:**

Preview Time refers to the period of time that is provided prior to the commencement of bidding. This is to facilitate approved participants to view the auction details such as item specifications, bidding details and bidding rules. The purpose is also to familiarize participants with the functionality and screens of the auction mechanism. It is not mandatory for "Service Provider" to provide Preview Time.

**Start Time:**

Start time refers to the time of commencement of the conduct of the online auction. It signals the commencement of the Price Discovery process through competitive bidding.

**Duration of the Auction:**

It refers to the length of time the price discovery process is allowed to continue by accepting bids from competing bidders. The duration of the auction would normally be for a pre-specified period of time. However, the bidding rules may state the conditions when the pre-specified duration may be curtailed/ extended. The conditions include:

- Curtailment of auction duration in the event of no bids for a specified period of time (Inactivity Time)
- Automatic extension in the event of bids being entered towards the end of the scheduled duration to facilitate the other biddersto view and react to the bid.

**Auto Extension of the Auction Timings:** In the event of bids in the last few minutes of the scheduled bid time, the Bid Timings are automatically extended for a specified period from each such bid. Such Auto Extension shall continue until no bids are placed for the specified period (Engine remains inactive for the specified period). The Inactivity Time for Auto Extension purpose is normally X minutes. "Service Provider" however retains the right to change the same. The Inactivity Time applicable for the particular Online Bid shall be visible to the bidders under the Bidding Rules module on the engine.

**End of the Auction:**

End of the Auction refers to the termination of the auction proceedings signaling an end to the price discovery process.

**Auction Report:**

"Service Provider" would provide an Auction Report to the Client containing a summary of the auction proceedings and outcome. The Auction Report would constitute the official communication from "Service Provider" to the client about the outcome of the Auction.
